

Newborn/Infant Photography Tips:

Please have the home temperature set at 75-85 degrees. Set this about one hour before our appointment time. This allows the home to heat up and be warm for your little one.

Swaddle the baby and diaper loosely so as not to leave any marks. On the same note, no elastic clothing or socks so that there are no marks in those areas.

Please nurse/feed your baby shortly before I arrive.

Keep a change of outfits available for any accidents.

Feel free to provide any "props" (i.e. blankets, stuffed animals, etc) for our session.

For Mom & Dad:

I'll be using your hands in the photographs, as well as your smiles. Keep nails simple (no bright nail polish for Mom) and clean; the same should be considered for make up as well.

Choose jeans over khakis

Keep jewelry to a minimum

Black shirts are great, as well as a white or cream top

Please do not hesitate to contact me with any questions prior to the session. I can't wait to work with you and your little one...I know it will be a great session!
