GUIDE FOR LITTLE LADIES

If your mini session includes mini people, use our last two style guides to dress the littles. For young girls, we love a subdued floral dress, denim on denim, and black and white patterned separates. Add a fresh flower or strappy summertime sandals to finish the look.

GUIDE FOR LITTLE GENTLEMEN

To keep your little boy looking fresh for photos, opt for classic colors overall. If you want to keep the Summertime tones going, opt for a muted pastel or earthy green. Avoid bright accessories and keep your photos timeless with black belts and watches.

WOMEN'S FASHION GUIDE NO. 1

Our first mini session style guide is a fresh take on Summer! If you want classic shots, or if you would describe your dressing as conservative, this guide is for you. We love large gingham print on a Hepburn-esque sundress and wide-leg pastel pants for a statement. Dress the look down with patched jeans or up with sunny yellow peep-toe heels.

WOMEN'S FASHION GUIDE NO. 2

Did we mention Summertime? This style guide is a sun-shiny, warm-weather dressing how to. If you opt for something more subdued than the butter yellow sundress (like a classic light-tan suede skirt or a playful off the shoulder blouse), bring the heat with a bright heel or accessory.

Note: these black mid-heel mules go with EVERYTHING.

MEN'S FASHION GUIDE NO. 1

Our first men's guide for your Summertime mini session is all about dressing dapper! If you're already on the dapper side (or you want to be), try a classic knit polo in retro colors with brown slacks and the dressiest dress shoes you can find. If you want to keep it classic without going back in time, opt for a simple white dress shirt with navy slacks.

MEN'S FASHION GUIDE NO. 2

From a floral short-sleeve button up to a plain white henley to retro-inspired navy blue sneakers, this guide has limitless combinations. Mix and match to fit your personality and top the look off with a classic watch.
